

Name: Ahmed Khalid Hassan

 Manama, Bahrain

 +973 39897784

 ahmed.hassan.rnd@gmail.com

Professional Summary

Motivated and innovation-driven Electronics Engineering graduate with strong interest in R&D, prototyping, and emerging technologies. Hands-on experience with Arduino, sensor integration, and product development through university projects and internships. Passionate about startups, experimentation, and solving real-world engineering problems.

Education

Bachelor of Engineering (B.E.) – Electronics & Communication Engineering

University of Bahrain

2021 – 2025

- GPA: 3.4 / 4.0
 - Final Year Project: Smart Health Monitoring System using IoT Sensors
-

Technical Skills

- Arduino & Raspberry Pi
- Circuit Design & Testing
- Basic PCB Design
- Product Prototyping
- Sensor Integration
- MATLAB & Python Basics
- AutoCAD & SolidWorks
- Microsoft Office Suite
- Technical Documentation

Internship Experience

R&D Intern

TechNova Solutions – Manama, Bahrain

Jun 2024 – Aug 2024

- Assisted in testing prototype electronic systems for automation projects
- Conducted technical research on low-cost sensor technologies
- Helped build and troubleshoot Arduino-based prototypes
- Documented experiment findings and presented weekly updates to engineers

Academic Projects

Smart Health Monitoring Device

- Developed a wearable prototype to monitor heart rate and temperature
- Integrated IoT sensors with Arduino for real-time data collection
- Improved prototype accuracy through repeated testing and calibration

Automated Greenhouse System

- Designed a small automated irrigation and climate monitoring system
- Used moisture sensors and microcontrollers for automation

Certifications

- Introduction to IoT – [Cisco Networking Academy](#)
- Arduino Fundamentals Workshop
- Product Design & Innovation Seminar

Strengths

- Strong curiosity and willingness to learn

- Team collaboration and communication
 - Creative problem-solving
 - Adaptability in fast-paced environments
-

Languages

- English – Fluent
- Arabic – Native
